LIST AND PRICES OF **DOUBLE AND SINGLE HERBACEOUS PAEONIES**

For Fall of 1908 and Spring of 1909

IN addition to this list, we have, growing in our grounds, many new varieties imported from different parts of the world. They are the latest French and English novelties, and the best of the Japanese varieties. The French Paconies are by the best-known horticulturists, such as Crousse, Calot, Dessert, Lemoine, and others. These French hybrids, which have flowered in the last four years, are very fine, and marvels of beauty. The Japanese Paconies are both single and double, and more odd in form and color than those of other countries. Our aim is to supply as

good Paconies as there are in the world, and to keep introducing each year the best Continental novelties.

In 1904, the Massachusetts Horticultural Society awarded us First Class Certificates of Merit on Pacony Lady Alexandra Duff, by Kelway; Marguerite Gerard, by Crousse; and Mme. Emile Lemoine, by Lemoine.

In 1905, the same Society awarded us First Class Certificates of Merit on Germain Bigot and Mme. de Treyeran, and Honorable Mention on M. Martin Cahuzac, all by Dessert.

In 1906, the same Society awarded us a First Class Certificate on Therese, by A. Dessert.

The *Horticulture* said of our 1905 table: "The best display — one that has probably never been equalled in any previous shows here — was that of E. J. Shaylor."

The *Florists Review* said of our exhibit in 1906: "E. J. Shaylor's collection of 200 varieties, comprising, as it did, so many fine novelties, was a centre of attraction. Mr. Shaylor has spent a lot of money on Paconies and has one of the finest collections in the country."

- Delecount Verhille.** (Delecount Verhille 1860.) White, centre striped carmine. \$1.00.
- Milton Hill.** (Richardson.) Synonym for Augustus B. Gould. This is large fresh pink with occasional splashes of carmine on a few of the centre petals. A very choice variety. This is the best seedling Richardson produced, in my opinion. There are two others sold for this, but I do not consider them correct. They are not equal to it in color or form. \$5.00.
- H. Woodward.** (Richardson.) A very large fresh pink with a creamy white centre. \$1.50.
- Baroness Schroeder.** (Kelway.) Flesh, changing quickly to white, creamy centre, strong grower. The flower has a tendency to come up in the centre in a plume shape, which detracts from its beauty. It has been very much overrated by a western grower. Avalanche and James Kelway outrank it in every way. \$3.50 for strong roots.
- James Kelway.** (Kelway.) A very large French white bloom, showing golden anthers at the centre. Strong grower; good habit. This variety is being offered under the name of Lady Alexandra Duff at a very high price by one American nurseryman. The plants and flowers are identical with this. Strong roots, \$3.00.

- Alice Crousse.** (Calot 1872.) Very pretty anemone shape, bright pink, centre salmon pink and pinkish white. Extra. \$2.00.
- Coronation,** a very large flower, light pink at the edges, the remainder a creamy flesh tint of a very delicate shade; the centre is chalice shaped with golden anthers at the bottom of the cup. A few anthers are also exposed between the petals. \$3.00.
- Grandiflora Nivea,** lovely French white; one of the grandest paeonies existing. Some petals have an occasional splash of carmine. \$2.00.

This Paony was sent me by Kelway as an order for five Lady Alexandra Duffs. I could have continued the fraud and palmed it off as such, for I hold an engraved First Class Certificate executed by the Massachusetts Horticultural Society awarded me for Lady Alexandra Duff before I discovered its true name.

It don't pay to continue a fraud because another practises one on you.

Besides these varieties we have over one hundred other varieties containing everything new that has been introduced in Europe for the past ten years.

In buying Paony roots, the use of one, two, and three year roots is very misleading. Some nurserymen look upon a piece of a root as big as your thumb as one year root.

It is best to buy from a man who gives his entire time to Paonies. You will get much better plants in every way, and run much less risk of being disappointed when they bloom.

My Farm is on South Avenue, Weston, Mass. The way to reach it is from Auburndale Station, on the B. & A. R. R., and not from my letter address station. From Auburndale it is only one and one half miles directly west.
